COMFORT WITH CONFIDENCE

Choose KeepRite® heating and cooling equipment so you can enjoy comfort with confidence. Our products deliver exceptional quality, reliability and energy efficiency, backed by time-tested engineering and leading-edge manufacturing. Every unit we make passes a performance check in all phases of operation before it leaves our facility. We call this 100% run testing, and it's one more example of how KeepRite goes the extra mile for your satisfaction.

WHAT MATTERS IN AN AIR CONDITIONER?

ENERGY SAVINGS

SEER (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of an air conditioner during an average cooling season. EER (Energy Efficiency Ratio) measures cooling efficiency of an air conditioner at a set temperature (95° F). For both ratings, the higher the number, the greater the potential for energy savings. Performance System air conditioners offer up to an ENERGY STAR® qualified 17 SEER and 13 EER.

CONSISTENT COMFORT

Available two-stage models automatically select high- or low-stage cooling as needed to match changing conditions and provide more uniform comfort and higher energy efficiency than standard models.

COMBINATIONS THAT WORK FOR YOU

A KeepRite split-system air conditioner is a properly matched combination of an outdoor air conditioner and a separate indoor unit such as a natural gas, oil, propane or electric furnace or a fan coil. Your KeepRite dealer can walk you through the options that best fit your needs.

RUGGED BUILD

We build our air conditioners to last with corrosion-resistant components, rust-resistant finishes and wire hail guard grilles.

PEACE OF MIND

Rest easy with a 10-year parts limited warranty upon timely registration.*

WHAT SETS KEEPRITE PERFORMANCE AIR CONDITIONERS APART?

Durability – The galvanized steel exterior cabinet with a baked-on paint finish (on most models) is built to weather the seasons, year after year.

Lasting Corrosion Resistance – Post-painted aluminum fin material and coated wire grille resist material breakdown.

Proven Performance – Scroll compressor operates with proven efficiency and reliability and is housed in an extra-thick shell for added durability.

Performance Series
Air Conditioner

Effective Air Management – Top-discharge design encourages uniform airflow across the outdoor coil to both improve airflow and minimize sound.

Efficient Cooling – Durable copper or aluminum coil tubing (depending on model) allows for efficient heat transfer required for cooling.

Easy Routine Maintenance – The control panel provides quick and easy access to controls for installation and maintenance, and the protective exterior grille is designed to allow easy coil cleaning.

COMPONENTS OF A COMPLETE KEEPRITE SYSTEM

We offer a complete family of products designed to provide year-round comfort, control and efficiency. Your dealer can help create a properly matched system to best fit your needs and your budget.

Thermostats

Wi-Fi®-enabled smart thermostat learns your schedule for greater efficiency and comfort.

Gas Furnaces

Provides efficient cooling for comfort and potential energy savings.

Fan Coils

Provides efficient cooling/heating for comfort and potential energy savings

Evaporator Coils

Matches to the proper outdoor unit to provide more cooling efficiency and years of reliable service.

PERFORMANCE SERIES AIR CONDITIONERS

KeepRite air conditioners can deliver cool, calm relief from soaring outdoor temperature. From the fully-featured Ion communicating system to our more budget-friendly options, KeepRite air conditioners include features like time-tested scroll compressors, available two-speed fan motors, and sound-reducing components and designs. Regardless of which model is right for you, we have an air conditioner for every home.
